

Delta Plan Stakeholder Workgroup Update

Requested Action: Update and summary of the first Governance and Implementation Workgroup meeting and the Communications and Outreach Workgroup meeting.

Background

At the May 2010 Council meeting, staff was directed to establish workgroups on key issues to provide the Council with information and options related to the Interim Plan and Delta Plan. At the June 2010 Council meeting, four workgroups were approved:

- Risk Reduction and Coequal Goals
- Governance and Plan Implementation
- Reduced Reliance on the Delta
- Public Outreach

While each workgroup (except Public Outreach) will be a standing group, each meeting will have a specific charge. The Public Outreach workgroup will meet only once to provide input to the Council's Communications Plan.

Two public workgroup meetings were held in Aug. 2010 to inform the Delta Stewardship Council's (Council) work on the Interim Plan and Delta Plan. The first meeting of the Governance and Implementation Workgroup was held on Aug. 3, 2010. The workgroup was asked to provide input on three questions regarding Council assistance to other agencies for implementation, anticipated implementation issues, and relationships of relevant plans to the Council's responsibilities. A summary of this workgroup meeting is provided as Attachment 1. On Aug. 12, 2010, a Communications and Public Outreach Workgroup meeting was held to gather feedback and suggestions on current and future Council communications and outreach efforts. A summary of this workgroup meeting is provided as Attachment 2.
